

Research over the last decade suggests that **Vitamin D** may be one of the most important nutrients recommended for supplementation. Emerging research suggests that Vitamin D not only helps build strong bones, but also immune prostate, colon and heart health.[†]

Consult your healthcare professional prior to use if you have or suspect a medical condition or are taking prescription drugs. Do not use if you have or suspect liver, kidney, bone, blood vessel, heart or liver disease or a calcium disorder. Not to use by children or women who are pregnant or lactating. Side effects from too much vitamin D include persisting nausea, vomiting, poor appetite, weight loss, frequent urination, depression, headache, drowsiness, or pain. People with allergies to wheat or corn should consult their healthcare professional before taking this product.

Storage: Keep tightly closed in a dry place at room temperature (59-77 Degrees F).
KEEP OUT OF REACH OF CHILDREN.
