

 Human MicroFlora (HMF) probiotic strains are research-driven and clinically proven in randomized, double-blind, placebo-controlled human trials at 25 billion CFU per day. Proprietary non-pathogenic human-sourced microflora bacterial strains are utilized as they have strong epithelial adherence and a naturally high tolerance to stomach acid.

Recommended Adult Male Dose: Take one capsule three times daily with meals, or as recommended by your healthcare practitioner. Take at least two to three hours before or after antibiotics or other medications. **Risk Information:** If you have an immune-compromised condition or high blood pressure, do not use. If you have a history of non-melanoma skin cancer; or to exclude a diagnosis of prostate cancer, consult your healthcare practitioner prior to use. If symptoms of digestive upset occur, worsen or persist beyond three days, discontinue use and consult your healthcare practitioner. **Guaranteed** to contain no added wheat, gluten, artificial coloring or flavoring, antimicrobial preservatives or dairy products. Ideal for vegetarians. **The capsules** are made from 100% pure vegetable sources, free of preservatives and additives. **Quality Assurance:** Safety-sealed for your protection and for product freshness. Do not use if inner seal is missing or broken. Store in a cool dry place.
