A healthy respiratory system is critical for good health. A wholesome lifestyle void of smoke and environmental pollutants is most important to proper respiratory function. High-quality herbal supplements may also improve respiratory function and help the body fight respiratory tract irritation caused by allergens. The ingredients in this 30 day **Respiratory System** program are formulated and traditionally used to support proper respiratory function and to help the body combat the effects of environmental respiratory irritants.*

By understanding our body's intricate and harmonious systems we can improve our own health and vitality, and share this wisdom with those we love.

Lung Support TCM: Is a Chinese herbal combination that acts as a tonic to moisten and nourish the tissues of the respiratory tract, particularly the lungs.*

Bronchial Formula: Is an Ayurvedic herbal formula designed to nourish the lungs and bronchi and to offer general protection to the respiratory tract.*

ALJ: Helps to soothe tissues and acts as an expectorant. This herbal combination supports healthy lung function, especially during seasonal changes.*
