Kinoko® Gold AHCC® delivers an extra-strength dose of 1500mg of pure Active Hexose Correlated Compound — one of the world's most researched natural immunomodulators — developed in Japan and used in over 1,000 clinics worldwide.

Active Hexose Correlated Compound is a patented extract of hybridized medicinal mushrooms that is uniquely rich in alpha-glucans. AHCC has very high absorption due to its low molecular weight of only 5,000 daltons.

AHCC is backed by over 25 clinical and in vivo studies published in peer-reviewed medical journals and by more than 50 human studies documented in papers and case reports. Research on AHCC has been conducted at highly reputable medical institutions such as the Yale Medical School, Harvard-affiliated Faulkner Hospital and U.T.M.D. Anderson. Several trials — including a 269-subject study published in the *Journal of Hepatology*, a double-blind, placebo-controlled published trial on healthy adults and a Yale Medical School study on healthy elderly patients — have shown that AHCC can increase the number or activity of:

- Natural killer (NK) cells, the body's first line of defense*
- Dendritic cells, which initiate adaptive immune response*
- T cells, which provide backup to NK cells*
- Macrophages, which clean up cellular debris*
- Cytokines, which activate the immune system*

IMMUNE HEALTH

Kinoko® Gold
AHCC®

Significantly improves immune response*

Enhances function of NK cells, DC cells, T cells, Macrophages and Cytokines*

Dietary Supplement • **60 Vegicaps** • 500mg • Double Strength

SUGGESTED USE: Take 2-6 capsules daily before meals or as directed by your healthcare professional.

Supplement Facts

Serving Size: 2 capsules
Servings Per Container: 30

Amount Per Serving		% Daily Value
AHCC® proprietary blend Mushroom mycelia extract, candelilla wax (candelilla plant), cyclodextrin (vegetable), microcrystalline cellulose (plant source).	1000mg	†

† Daily value not established.

Other ingredients: vegetable cellulose, vegetable magnesium stearate (from plant oil).
