

Adequate calcium and vitamin D₃ as part of a healthy diet, along with physical activity, may reduce the risk of osteoporosis in later life.

Calcium and magnesium, necessary for strong bones and teeth, are also critical for cardiovascular health, nerve and muscle function and many enzyme reactions.*

Vitamin D₃ supports breast, bone, heart and immune health.*

Exclusive **Double Amino Acid Chelation** to promote higher calcium and magnesium absorption.

Store in a cool, dry place, away from direct sunlight. Packaged with safety seal.
