

Calcium is necessary for strong bones and teeth, and also critical to many enzyme reactions, cardiovascular health, and nerve and muscle function.*

A healthy diet and sufficient uptake of calcium may reduce the risk of osteoporosis later in life, especially for teenage and young adult women.*

NeoLife has designed high potency chewable Neo-Cal with multiple sources of calcium and added vitamin C, magnesium and betaine hydrochloride (sourced from natural beet root) to ensure easy digestion and absorption and better calcium utilization.

Store in a cool, dry place, away from direct sunlight. Packaged with safety seal.
