

Vitargo® S2 is the original super carb, proven in university studies in humans to be up to 2.3x faster than maltodextrin (homopolysaccharide). Vitargo's patented IVg technology delivers faster gut transit, glycemic and insulin responses, muscle glycogen refueling, and performance. No other carb has this span of proof. Vitargo S2 is 100% sugar-free, lab tested gluten-free, and certified undetectable banned substances.

- **Leaves the stomach quicker** 2.3x faster than maltodextrin + sugars - in the first 10 minutes after ingestion.¹ This leads to less stomach "distress" and faster delivery of muscle energy.
- **Gets into muscle faster** 1.7x faster glycogen refueling than maltodextrin + sugars after exhaustive workouts.²
- **Boosts performance in your next workout** Up to 23% greater maximal endurance (average of 10% greater) 2 hours after exhaustive, glycogen-depleting exercise, compared to maltodextrin + sugars.³
- **Turns off muscle protein breakdown** 1.8x faster/higher insulin response than maltodextrin + sugars, within 10 minutes¹ - the most potent, natural way to activate the anti-catabolic signals that spare muscle protein.

VITARGO-Specific Research — this actual product is university proven in HUMANS

VITARGO® S2™

PRE • INTRA • POST

Fastest Muscle Fuel™

BLOAT-FREE FUELING

Unflavored / Unsweetened

SUGAR-FREE DRINK MIX Not a low calorie product
Dietary Supplement Net Wt. 2.98 lbs (1,350g)

SAME DAY RECOV^{er}Y™

PATENTED IVg TECHNOLOGY™

INSTRUCTIONS

Vitargo®S2™ is a different engineered carbohydrate - please follow directions closely:

HOW In a shaker bottle

- Add 10-12 oz. of water (room temp. is best) to a large shaker bottle.
- Add 2 level scoops of Vitargo® S2 and shake vigorously for 10-15 seconds.
- Add an additional 10-12 oz. of cold water and shake vigorously for 15-20 seconds.

In a blender

- For best results add 2 level scoops into a blender with water while it's blending at low-medium.

WHEN PRE- (before) or INTRA- (during) training or competition

- Mix 1 or 2 level scoops of Vitargo S2 as stated above. Feel free to add your favorite pre-workout, amino acid, electrolytes, or other non-carb supplement. Note that Vitargo is a fractionated STARCH and is thicker/more viscous than other powdered drinks.

POST- (after) training or competition, or for glycogen loading

- Drink 2 level scoops as soon as possible after finishing. Ideally, mix with 20-25 grams of a protein source. After longer training/competition (> 1-1.5 hrs) take another 1-2 scoops 30-90 minutes later.

For more detailed info, go to VitargoS2.com IF YOU DON'T TRAIN YOU'RE NOT READY FOR VITARGO®.
