

Phospholipid Colostrum

With Sunflower Phospholipids

Phospholipid Colostrum is obtained from healthy, grass-fed cows, within the first 16 hours after birthing. It has an added natural phospholipid coating from sunflower lecithin, for enhanced protection, dissolution, and absorption.* It is tested to be free of antibiotics and growth hormones.

Suggested Use

As a dietary supplement, 1 scoop (5 g) one or two times daily, or as directed by a healthcare professional.

Women who are pregnant, wishing to become pregnant, or breastfeeding should use only under the supervision of a qualified healthcare practitioner.

Store in a cool, dry place, tightly sealed.
