

100% Bovine Colostrum

Symbiotics® Sport Muscle Impact™ is derived from colostrum collected during the first milking after birthing from cows at USDA Grade A dairies. Our colostrum is low heat processed for maximum bioactivity, laboratory tested to contain a minimum of 1,950mg or 19.5% Immunoglobulins (IgG), and 480mg or 4.8% Proline-Rich Polypeptides (PRPs) per dose.

Proprietary Athletic Blend

Muscle Impact contains a proprietary blend of instantized colostrum that delivers the highest amount of immune factors (PRPs and immunoglobulins) per dose of any sports nutrition supplement on the market today. The concentrated amounts of PRPs and immunoglobulins in Muscle Impact are essential to any extreme athlete looking to train and compete at the highest level, given the high stress that rigorous, long term, physical activity places on the immune system.* Muscle Impact's proprietary blend also includes several natural growth factors (IGF-1 and IGF-2), as well as transforming growth factors (TGF-alpha and TGF-beta), which have been clinically shown to enhance exercise performance, support muscle recovery, and increase lean body mass following strenuous exercise, when consumed at the recommended daily dosage of 20 grams daily (2 scoops of Muscle Impact).*

Quality and Purity Assured

Exclusively from USDA Grade A dairies. Laboratory tested and verified free from pesticides, antibiotics and rBHT hormones. Each jar is double sealed for quality and safety. If either seal is broken or missing, do not use and call 1-800-421-1830. Close tightly and store in cool, dry place (below 75°F), away from heat.

Warning: If you have a physician-diagnosed health condition, consult your doctor before taking this product. Do not use if you are pregnant, nursing or contemplating pregnancy. Not intended for individuals under the age of 18, unless under the supervision of a doctor. Discontinue use if you experience adverse reactions and consult your doctor.

*THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE OR PREVENT ANY DISEASE.
