BCAA Blend

Symbiotics® Sport Amino Impact™ includes a natural instantized blend of branched-chain amino acids providing a precise 2:1:1 ratio of BCAA: L-Leucine, L-Isoleucine and L-Valine. BCAAs are important during times of metabolic stress, such as high intensity resistance training, since BCAAs may become fuel for your muscles and help aid in protein synthesis and prevent protein catabolism (protein breakdown).*

Bio-Active Peptides from Bovine Colostrum

The Bio-Active Peptides found in Amino Impact™ are derived from a proprietary blend of instantized colostrum that delivers the highest amount of immune factors (PRPs and Immunoglobulins) per dose of any sports nutrition supplement on the market today.* The concentrated amounts of PRPs and Immunoglobulins in Amino Impact™ are essential to any extreme athlete looking to train and compete at the highest level, given the high stress that rigorous, long-term, physical activity places on the immune system.* Amino Impact's proprietary blend also includes several natural growth factors (IGF-1and IGF-2), as well as transforming growth factors (TGF-alpha and TGF-beta), which may enhance exercise performance, support muscle recovery, and increase lean body mass following strenuous exercise, when consumed at a daily dosage of 20 grams daily, or 4 servings (scoops) of Amino Impact™.*,†

Quality and Purity Assured

Exclusively from USDA Grade A dairies. Laboratory tested and verified free from pesticides, antibiotics and rBHT hormones. Each jar is double sealed for quality and safety. If either seal is broken or missing, do not use and call 1-800-421-1830. Close tightly and store in cool, dry place (below 75°F), away from heat.

Quality Assured

Warning: If you have a physician-diagnosed health condition, consult your doctor before taking this product. Do not use if you are pregnant, nursing or contemplating pregnancy. Not intended for individuals under the age of 18, unless under the supervision of a doctor. Discontinue use if you experience adverse reactions and consult your doctor.
