

PRODUCT BENEFITS: Vitamin D is required to promote calcium absorption, which helps to maintain healthy bones and teeth.* It also supports a healthy immune system and neuromuscular function.* As we age, our bodies may absorb this important nutrient less efficiently. The Vitamin D3 in this product is the same form produced by the body when our skin is exposed to sunlight.

Directions: For adults and children 2 years of age and older, chew one (1) tablet daily, preferably with a meal or follow the advice of your health care professional. Chew tablets thoroughly. As a reminder, discuss the supplements and medications you take with your health care providers.

TAMPER RESISTANT: Do not use if seal under cap is broken or missing.
KEEP OUT OF REACH OF CHILDREN.

Store at room temperature and avoid excessive heat.
