

One of the main causes of mild memory problems associated with aging is damage to the mitochondria of the cells.

Enhanced **VitaPQQ**® features:

- BioPQQ®, a newly discovered vitamin that promotes mitochondrial biogenesis.\*
- CoQ10, a coenzyme that fuels the mitochondria.\* MicroActive® CoQ10-SR® is highly bioavailable and delivers sustained release over 24 hours.

A human study found that the combination of BioPQQ and CoQ10 improves short-term memory & focus better than either ingredient alone.\*
