

Take the Pure Advantage™

Conjugated Linoleic Acid (CLA) is an omega-6 essential fatty acid. Omega-6 EFA's are essential to human health but cannot be made in the body. For this reason, they must be obtained from food. A double-blind, randomized, placebo-controlled study, published in the December 2000 issue of the *Journal of Nutrition* found that CLA reduces fat and preserves muscle tissue.

Contains no sugar, starch, yeast, wheat, gluten, corn, soy, milk, egg or preservatives.

**KEEP OUT OF REACH OF CHILDREN.
