

MHP's BCAA 3300 is a super-anabolic Branched Chain Amino Acid complex formulated in a powerful 4:1:1 ratio (leucine: isoleucine: valine) for maximum muscle building and recovery. This highly anabolic ratio sets MHP's BCAA 3300 apart from other formulas that use the outdated 2:1:1 ratio. The newest muscle-building and performance research reports that leucine is the most anabolic of all aminos and activates the mTOR anabolic pathway to increase protein synthesis for enhanced muscle growth and repair.*

BCAAs are essential amino acids, which means the body cannot make them and they must be supplied through food or supplementation. An athlete's requirement for BCAAs is even higher than that of ordinary individuals because they serve as "building blocks" for muscle tissue and are also utilized for energy. BCAA 3300's higher levels of leucine, in conjunction with isoleucine and valine, allows for higher anabolic activity and optimal BCAA replenishment for athletes. Additionally, BCAA 3300 has a timed release delivery to provide a continual supply of these key amino acids for optimum anabolic and anti-catabolic effects.*

MHP's BCAA 3300 is the most scientifically advanced anabolic BCAA formula available and is a must for all serious bodybuilders and athletes!*

NOTICE: Use this product as a food supplement only. Do not use for weight reduction.

mTOR Activated Anabolic Complex

BCAA

TIMED RELEASE 3300

BRANCHED CHAIN AMINO ACIDS

The Most Anabolic BCAA Formula*

4:1:1 Leucine Loaded
Increased Muscle Growth*
Improved Recovery*

120 Tablets

Dietary Supplement

Directions: Take 4 tablets once or twice daily. For optimal use, take 1 serving (4 tablets) before workouts and 1 serving (4 tablets) immediately after your workouts.

Supplement Facts

Serving Size: 4 Tablets

Servings Per Container: 30

	Amount Per Serving	% Daily Value
Riboflavin	1.7 mg	100%
Vitamin B6	1.5 mg	75%
L-Leucine	2200 mg	†
L-Isoleucine	550 mg	†
L-Valine	550 mg	†

† Daily value not established

Other ingredients: Microcrystalline cellulose, calcium carbonate, hydroxypropyl methylcellulose, stearic acid, methylcellulose, magnesium stearate, silica and titanium dioxide.

- Keep out of reach of children.
- Store at 15°-30°C (59°-86°F).
- Protect from heat, light and moisture.
- Do not purchase if seal is broken.
