

TRAC[®] No Loading—No Bloating

TRAC's Nitro-Loading transport is a revolutionary breakthrough in Creatine supplementation. TRAC[®] uses Arginine for the production of Nitric Oxide for maximum muscle pumps to help mediate insulin and improve Creatine transport. This patent pending combination of Arginine and Creatine helps increase Creatine transport without using excessive amounts of carbohydrates (sugar).

TRAC also contains the powerful stimulant-free energizer NADH (nicotinamide adenine dinucleotide), which works in conjunction with Creatine to produce ATP—the energy source for all living cells and cellular processes, including muscle contraction, metabolic reactions and the transmission of nerve impulses.

TRAC's patent pending pharmaceutical time-released delivery system, TRT[®], ensures optimum transport and bioavailability of Creatine, Arginine and other active substrate ingredients, and is released in the bloodstream to muscle tissue for up to 8 hours. This sustained release improves nutrient delivery to muscles as it is needed, so you can maintain peak power energy and pumps throughout your workout and continue to feed your muscles for maximum recovery.*

TRAC[®]

DIRECTIONS: Take one serving (17 grams) daily, preferably pre-workout. Mix with 8 oz. of water and stir vigorously or mix in a shaker bottle.

Due to TRAC's micro-encapsulated Time Release Technology contents may suspend when mixed in water. Additional stirring may be required.

Supplement Facts

Serving Size: 17 grams (approx. 1 heaping tablespoon)
Servings Per Container: 25

	Amount Per Serving	% Daily Value†
Calories	35	
Total carbohydrates	4	<2%
Sugars	0	
Folate (as folic acid)	400 mcg	100%
Creatine Monohydrate	4 grams	+
L-Arginine	4 grams	+
L-Lysine	600 mg	+
L-Phenylalanine	200 mg	+
NADH (nicotinamide adenine dinucleotide)	2.5 mg	+

+ Daily Value (DV) not established

†Percent values are based on 2,000 calorie diet.

Ingredients: Maltodextrin, citric acid, natural grape flavor, guar gum, acesulfame potassium, sucralose, vegetable oil, egg lecithin, FD&C red #40, FD&C blue #1
