

World's Most Beneficial Olive Leaf Complex

Medicinal use of olive leaves dates back to ancient Egypt and is referenced by Hippocrates. One of the primary compounds in olive leaf, *Oleuropein*, has attracted scientific attention since the early 1900s and has been well researched for its health benefits. Used as a health tonic throughout the world today, a steadily growing body of science points to olive leaf complex as worthy of its ancient medicinal reputation.

Barlean's olive leaves are sourced from the Andalusian region of southern Spain, well-known for its warm climate and rich soil that allows *Olea europaea* trees to thrive in their native coastal Mediterranean environment. These healthy leaves are teeming with the powerful antioxidant Oleuropein as well as a wide range of natural polyphenols.

May Support Healthy:

- Immune System* • Cardiovascular System*
- Blood Pressure in the normal range* • Joints*

- NON GMO • Sustainable Source • Refrigeration is not required

Consult your healthcare provider prior to use if you are pregnant, nursing or have a history of low blood pressure.
