360 Easy-to-Swallow Capsules

Andrew Lessman's COENZYME Q-10 200 begins with 200 mg of the world's finest natural CoQ10 and adds 300 mg of non-acidic Vitamin C, along with high levels of all the B-Complex vitamins, including 100 mcg of our protected B12. CoQ10 is required for all energy production and for life itself. In fact, because CoQ10 must be present in all living cells, its chemical name is Ubiquinone from the word "ubiquitous" meaning present everywhere. CoQ10 is even more vital as we age, since CoQ10 levels decline rapidly with age, stress, physical activity, poor diet, health issues and even with medications such as cholesterol-lowering drugs. All cells require CoQ10 for energy production and cellular protection and it is therefore not surprising that CoQ10 is found in the highest concentrations in the "hardest working" organs in the body (Heart, Brain, Liver, Kidneys and Pancreas). The ability of our vital organs to create abundant energy and to protect themselves from cellular damage define our good health, and the benefits of CoQ10 are enhanced by the addition of ultra-high levels of the proven energy cofactor Vitamin B12, plus 300 mg of Vitamin C and all the B-Complex. There is no more comprehensive, natural and pure CoQ10 formula available anywhere.
