ULTIMATE EYE SUPPORT

10MG LUTEIN • 4MG ZEAXANTHIN

BILBERRY • GAMMA TOCOPHEROL • EGCG
GRAPE SEED • BIOFLAVONOIDS • ELDERBERRY

360 Easy-to-Swallow Capsules

Andrew Lessman's ULTIMATE EYE SUPPORT is a comprehensive blend of ingredients that promote healthy vision and protect the delicate tissues of the eye. It contains high levels of **Lutein** and **Zeaxanthin** – Mother Nature's most powerful, protective compounds for the delicate tissues of the eye. Not surprisingly, **Lutein** and **Zeaxanthin** are most highly concentrated in the retina and its macular region. **Ultimate Eye Support** provides far higher levels of **Lutein** than any leading multivitamin. It also contains 4 mg of **Zeaxanthin** – just as important as **Lutein**, but ignored by the leading multivitamins and found at low levels in most eye formulas. **Lutein** and **Zeaxanthin** cannot be produced by the body, so their benefits can only come from food or supplements. Given the low levels of **Lutein** and **Zeaxanthin** in the American diet, supplementation is essential. **Ultimate Eye Support** also uniquely provides both Alpha and Gamma Tocopherols – the latter being the most protective form of **Vitamin E** that is absent from other eye formulas. We also include a high potency blend of **Bilberry** and **Elderberry** Extracts standardized for Anthocyanins – the purple protective compounds that support healthy night vision. We also provide high levels of our EGCG-rich **Green Tea Extract** to further protect the delicate tissues of the eye, along with our **Citrus Bioflavonoids**, non-acidic **Vitamin C** and our OPC-rich (Oligomeric Proanthocyanidins) **Grape Seed Extract** that targets the eye's micro-circulation. In short, **Ultimate Eye Support** provides Mother Nature's best tools to support a lifetime of healthy vision and to protect the delicate lens, retina, and macula of the eye.

Always Wear UV-Protective Sunglasses Outdoors.
