

SUGGESTED USE Consume two capsules daily or as recommended by a health care professional. Calcium is best absorbed when you consume **no more than 500mg** of Calcium (2 capsules) at once. For best results, take this product with food containing a small amount of fat or oil. This product is most effective as part of a healthy diet and active lifestyle, along with one of **ANDREW LESSMAN'S** multi-vitamin-mineral formulas. **For answers to questions about the use of this product, call 800.808.7311.**

WARNING Unless directed by a physician, Vitamin K is not for use with any anticoagulant drugs (Coumadin, Warfarin, Heparin, etc). If you have ever experienced any blood clotting abnormalities, consult with a health professional before using this or any Vitamin K-containing product.

500 Easy-to-Swallow Capsules

Andrew Lessman's ULTIMATE CALCIUM INTENSIVE CARE is a mild all-natural formula designed to address the needs of virtually all individuals, particularly women, to consume extra **Calcium** and **Vitamin D3**. This ultra-mild, easy-to-swallow and easy-to-absorb formula is ideal for those who have challenges with large, ordinary calcium tablets. Calcium is one of the most abundant minerals on our planet, yet it is sadly lacking from our diet. One must also consider that without adequate Vitamin D3, we cannot absorb what little Calcium we manage to consume and sadly, Vitamin D3 is just as scarce as Calcium. In fact, inadequate Calcium and Vitamin D3 intake poses an enormous threat to the long-term health of our bones and bodies in this country. Making matters worse is the fact that ordinary Calcium is very hard to absorb from typical supplements, particularly those large, rock-like calcium tablets. At ProCaps, we overcome this problem by using only highly soluble, ultra-fine powdered forms of Calcium in small, easy-to-swallow capsules that are guaranteed gentle even to sensitive stomachs. This eliminates the difficult swallowing, chalky taste, poor absorption and stomach upset that make ordinary calcium supplements so unpleasant. In order to support bone formation and preservation, we also include **Vitamin K1**, which is important for Calcium transport throughout the body. Because of its ultra-fine powder and super-soluble ingredients, our **Ultimate Calcium Intensive Care** remains mild despite delivering 500 mg of Calcium, 500 mcg of Vitamin K1 and 1,000 IU of Vitamin D3 in two small, easy-to-swallow capsules. As we get older, the Calcium we require becomes more difficult to absorb and tolerate, but **Ultimate Calcium Intensive Care** makes it easy to enjoy the Calcium, Vitamin K1 and Vitamin D3 required for a healthy skeleton and body while always remaining gentle and mild - even to sensitive stomachs.
