

THE TRUE STRENGTH OF FISH OILS

Fish Oils contain long-chain fatty acids including docosahexaenoic acid (DHA) and eicosapentaenoic acid (EPA). DHA and EPA are omega-3 fatty acids with important roles in numerous metabolic functions[▲]. They are found in foods like salmon and supplements such as the ON Fish Oil Softgels you're holding in your hand. Our Fish Oil Softgels are enteric-coated, which means that you get the benefits of fish oils without the fishy aftertaste that you might encounter without this special coating.

WARNING: CONSULT YOUR PHYSICIAN BEFORE USING THIS PRODUCT IF YOU ARE TAKING ANY MEDICATIONS OR ARE UNDER A PHYSICIAN'S CARE FOR A MEDICAL CONDITION. NOT FOR USE BY THOSE UNDER THE AGE OF 18 OR WOMEN THAT ARE PREGNANT, TRYING TO GET PREGNANT, OR NURSING.
