Amino Acid Profile

Mg Per 100g of Protein

Alanine	4,230mg
Arginine	7,040mg
Asparatic Acid	11,130mg
Cysteine	1,250mg
Glutamine*	21,710mg
Glycine	3,830mg
Histidine	2,600mg
Isoleucine	5,950mg
Leucine	7,650mg
Lysine	6,500mg
Methionine	1,380mg
Phenylalanine	5,100mg
Proline	5,430mg
Serine	5,180mg
Threonine	3,890mg
Tryptophan	1,280mg
Tyrosine	3,860mg
Valine	6,010mg
Total Amino Acids	104,020mg
Critical Five Amino Acids	48,360mg
*as Glutamic Acid	

PROBOLIC Versus Leading Proteins

PROBOLIC® - This advanced protein blend (Supro® soy protein isolate, whey concentrate, casein) contains very high levels of the critical amino acids Glutamine, Arginine, and BCAA's. Probolic-SR's 12 hour release of amino acids ensures that your muscles receive the nutrition they need to support muscle growth and recovery. This sustained delivery keeps your body in an anabolic muscle building state and prevents catabolic muscle wasting.*

- Keep out of reach of children.
- Store at 15°-30°C (59°-86°F).
- Protect from heat, light and moisture.
- Do not purchase if seal is broken.

Anabolic / Anti-Catabolic Bio-Efficient Protein

PROBOLIC-SR

Sustained Release Micro-Feed Technology™

- **Fast, Medium & Slow Release Profile Ideal Anytime: Pre-Workout, Post-Workout and Before Bedtime***
- **Highest Levels of the Critical 5 Amino Acids (Glutamine, Arginine & BCAA's) ***
- **Flax, CLA & MCT's**

**908g (2 lbs.)
dietary supplement**

PROBOLIC-SR—12 Hour Sustained Release Bio-Efficient Protein

Probolic-SR's patented 12 hour Sustained Release Micro-Feed Technology and superior Critical Five Amino Acid Score (CFAAS) are major breakthroughs in protein supplementation. These two exclusive breakthroughs have set new standards in the bio-efficiency and anabolic effects of protein by giving you something no other protein can: a continual 12 hour supply of the most critical amino acids to stimulate muscle growth, improve recovery—and prevent catabolic muscle wasting.*

Amino acids are the building blocks for muscle tissue. In order to achieve maximum muscle growth, you must have an adequate supply of amino acids to feed your muscles. Certain amino acids are more important than others for stimulating and supporting muscle growth. These amino acids are called the Critical Five amino acids, which include glutamine, arginine and BCAA's (leucine, isoleucine and valine). Probolic-SR's engineered protein matrix of whey concentrate, soy isolate and casein is precisely formulated to supply the absolute highest levels of these Critical Five amino acids. Aside from providing the highest Critical Five Amino Acid Score, this protein matrix also provides a fast, medium and slow "release profile", which improves bio-availability and nitrogen retention.*

The exclusive patented Sustained Release Micro-Feed technology further enhances the "release profile" and provides a continual supply of Critical Five amino acids for up to 12 hours! This controlled sustained release of amino acids to your muscles increases bio-availability and nitrogen retention and creates the ideal anabolic/anti-catabolic state for maximum muscle growth and prevents muscle breakdown. Probolic-SR's Micro-Feed technology makes it the most bio-efficient protein available.*

Feed Your Muscles with PROBOLIC-SR—the 12 Hour Muscle Feeder!
