

SCI-FIT

Suggested Use:

As an adult dietary supplement, mix one heaping scoop (30.5 grams) with 12 to 16 ounces of water 30 to 60 minutes prior to exercise/athletic event. For advanced athletes, a second serving may be taken immediately following the event. On non-workout days, take one heaping scoop immediately upon waking.

SCI-FIT'S® "SHOCKWAVE™" is a dual phase state-of-the art formulation featuring multiple patented proven nutrients designed to enhance endurance, improve recovery, and subsequently allow the body to perform at its best. The challenge posed for every athlete is trying to decide amongst all of the over-priced hype what is the optimal nutritional blend to consume prior, during, and/or after an athletic event. Is it the sugar laden "sports" beverages that you see professional athletes endorse?...No!!! It is in seeking the answer to that extremely important question that SCI-FIT® researched and developed the nutritional masterpiece that is SHOCKWAVE™.

SHOCKWAVE™ is a meticulous combination of a patent pending homopolysaccharide KARBO-LYN™, which is a newly developed rapid absorbing sugar free carbohydrate, with an anti-catabolic time tested nutritional array. SHOCKWAVE™ is absorbed more effectively than maltodextrin, dextrose, rice, pasta, or any other carbohydrate on the market. Each impressive serving of SHOCKWAVE™ provides the patented pH balanced 100% absorbable Kre-Alkalyn®. Kre-Alkalyn® is the most successful product in SCI-FIT'S® history and is exceptional for improving strength and endurance! To further enhance endurance during training and recovery post-training, SHOCKWAVE™ has a powerful precise anti-catabolic blend of patented HMB, Glutamine, BCAA's, Beta- Alanine, and L-Histidine. To assist the body in dealing with inflammation caused during training and to add connective tissue support, SHOCKWAVE™ has a high dose of Glucosamine Sulfate coupled with the powerful Antioxidant NAC (N-AcetylCysteine). SHOCKWAVE™ combines this extremely impressive nutritional array with a precise amount of this new complex carbohydrate KARBO-LYN™ and added Vitamin C. SHOCKWAVE™ truly is a phenomenal non-stimulant anti-catabolic masterpiece safe for athletes of all ages male or female. SCI-FIT® continues its mission to provide the athlete in all of us safe, natural products to assist us in achieving our goals!*
