MACA X-6 BLACK AND RED-PURPLE

Commonly known as "The Peruvian Ginseng," Maca is a root vegetable indigenous to the Andes of Peru. Maca was domesticated by the Incas and has since been used by indigenous people as part of a daily diet to promote optimal well being.* While most Maca Powders simply offer dried and ground yellow Maca, Organic Traditions Black & Red-Purple Maca X-6 is a gelatinized concentration of 80% black, 15% red-purple and 5% yellow Maca. Six pounds of these three fresh maca root varieties are condensed into one pound of powder. Gelatinization removes the starch from the root leaving a more concentrated powder that is not only easier to absorb and digest, but that offers a greater concentration of powerful phytonutrients.

Add Maca X-6 to water, coconut water, juice, smoothies, desserts, on top of yogurt or in any other recipe. Create a delicious Maca smoothie by blending 1-2 teaspoons of Maca X-6 with Organic Traditions Cacao Powder, Organic Traditions Sprouted Chia Powder, Organic Traditions Shredded Coconut, Organic Traditions Goji Berries, Organic Traditions Golden Berries, Organic Traditions Baobab Powder, Organic Traditions Vanilla Powder, Organic Traditions Yacon Nectar as a natural sweetener and any other Organic Traditions or Natural Traditions Superfoods with sufficient water (3-6 cups) to achieve the desired consistency.
