

A Revolution in Whole Food Nutrition

The Barlean's four generation family fishing heritage is proud to present Wild & Whole Alaskan Salmon Oil.

Wild caught in the icy cold, pristine waters of Alaska, whole salmon oil contains all of the nutritional goodness with only minimal processing to remove any possible environmental contaminants (including arsenic, lead, cadmium and mercury).

Both non-GMO and gluten free, Wild & Whole Alaskan Salmon Oil provides a full spectrum of healthful Omega-3s, the powerful antioxidant astaxanthin and naturally occurring Vitamin D3.

Salmon oil in its natural triglyceride form is highly absorbable and easily digestible, eliminating burp-back (typical of many fish oils).

Barlean's Wild & Whole Alaskan Salmon Oil passes stringent 3rd party laboratory tests for purity and freshness. In addition, it receives the coveted 5 star rating from IFOS, a distinguished and accredited third-party certification program.
