American Ginseng has been prized as one of the most valuable herbs on earth. It has been safely consumed and enjoyed by millions of people. According to Traditional Chinese Medicine (TCM), American Ginseng has 'yin' or 'cooling' properties which are believed to bring the body back into balance when it is too 'yang' or 'hot' from different effects of stress. This supreme product is made with high quality 4 year-old selected Wisconsin American ginseng roots.

Royal Jelly is the unique substance that is fed to the queen bee by the worker bees and is what she relies on for nourishment in her unique role in the development of the new bees. Worker bees live for only a few weeks while the queen bee lives for many years and Royal Jelly is believed to make this difference.

Bee Pollen is considered to be Nature's perfect food; a complete nutritional supplement containing all the essential nutrients necessary to sustain life (such as proteins, carbohydrates, fats, vitamins, enzymes, minerals, trace elements, antibiotics, and hormones).
