MAXON PURE STRENGTH

POWERED BY

elevATP & **TORABOLIC**
HEALTHY MITOCHONDRIAL ENERGY

In the gym or on the field—strength is king. **MAXON PURE STRENGTH™** is designed to help you maximize your strength gains.^Δ With three of the most potent, clinically researched strength-building ingredients in the industry, **MAXON PURE STRENGTH** sets a new standard in sports supplements.

In an 8-week study using the same amount of **TORABOLIC®** as found in **MAXON PURE STRENGTH**, subjects gained an average of 20 pounds on their max bench press and 187 pounds on the max leg press, for a total of 207 pounds (82% increase vs. placebo).^Δ

In another groundbreaking clinical study, the same dosage of **elevATP®** used in **MAXON PURE STRENGTH** has been shown to significantly increase adenosine triphosphate (ATP) levels within 60 minutes. ATP is the body's primary energy source for muscular contraction of skeletal muscle, which further research has shown could lead to greater gains in strength and power.^Δ

Creatine HCL is a time-tested powerhouse that helps the **Creatine ATP** cycle recover faster to help maximize every grueling set and rep.^Δ

The addition of **AGMAFLOW™** Agmatine Sulfate and Sodium Bicarbonate are used to help increase blood flow and nutrient delivery to the exerted muscle, for even greater potential gains.^Δ
