Chris Kilham, Medicine Hunter

Hot Plants® for Him sexual enhancement formula* was developed in collaboration with medicine hunter Chris Kilham, a leader in the field of plant medicine.

- This formula is based on the findings in his book, *Hot Plants*, a guide to herbal support for sexual fulfillment.
- To develop this herbal formula, Kilham traveled to remote areas of the globe in search of native healers with traditional remedies for male sexual enhancement.*
- Enzymatic Therapy* took these herbs, combined them with modern science and developed this unique formula to boost male sex drive and enhance sexual performance and endurance.*
