30 PACKS

CLINICALLY
STUDIED^

Dr. Frank J. Costa, M.D., an internationally acclaimed urological surgeon and men's health expert, is part of the GNC Medical Advisory Board.

One of "America's Top Physicians," Dr. Costa lectures nationally and internationally on men's health topics. Dr. Costa is regularly featured in television, radio and newspaper interviews and has published articles in both professional journals and popular magazines.

"Proper nutrition is essential for optimal athletic performance. I recommend the Mega Men® Sport Vitapak® Program. It provides a strategic combination of vitamins, minerals and other nutrients to fuel performance while supporting good health."

MEGA MEN® SPORT

GNC Mega Men® Sport Vitapak® Program conveniently combines nutrients and special ingredients designed to support the overall health, athletic performance and exercise intensity of active men.

- **Mega Men® Sport** – Our premium timed-release, clinically studied* formula includes vitamins and minerals to supplement key nutrients that may be missing in your daily diet. Mega Men® Sport contains 1,600 IU of vitamin D-3 for colon health and immune support, as well as B-vitamins that are important for cardiovascular health, energy production and carbohydrate metabolism.* This multivitamin fuels muscles and supports recovery with amino acids including BCAAs; features a joint cushioning blend for healthy joint cartilage; and provides a broad spectrum of cell-protecting antioxidant nutrients that also support immune health.*
- **Burn 60™** – A clinically proven thermogenic formula that helps to enhance metabolism, burn calories and boost energy.* The powerful ingredients in Burn 60™ have been clinically shown to increase calorie burning by up to 60%.**
- **L-Glutamine** – An important amino acid that plays a pivotal role in the nitrogen balance in the body, provides an anti-catabolic effect and is involved in protein synthesis and hydrating muscle cells.* Glutamine levels in the body are drastically reduced with intense exercise and supplementing with L-glutamine can help the body maintain glutamine levels and maximize your muscle function.*
- **L-Arginine & L-Citrulline** – This powerful combination of ingredients work together to provide extra support for nitric oxide production.* L-arginine is a precursor to nitric oxide in the body while L-citrulline can be converted to L-arginine, assisting in the nitric oxide pathway.*

This complete nutritional plan provides a convenient way to achieve your daily nutritional goals. Each pack is easy to take with you to the gym, to work or when traveling.

^In a randomized, double-blind, placebo-controlled study of 112 healthy volunteers, subjects taking the GNC vitamin and mineral blend in this product for six weeks experienced statistically significant improvements in markers of B vitamin and antioxidant status, as well as improvements in SF-36 Vitality and Mental Health scores compared to those taking a placebo.

**Clinically proven to increase post workout calorie burning by up to 60% for up to one hour after a workout. This double blind placebo controlled crossover study consisted of 22 healthy men and women. Participants exercised on a treadmill on two occasions. On one occasion they took Burn 60™ before exercise and on the second, they took a placebo. The amount of calories burned during the first hour post exercise was measured and participants burned up to 60% more calories while on Burn 60™ compared to when they took the placebo.
