

MPOWER is used by male and female athletes during training, competition and recovery to immediately enhance fat loss, weight loss, perceived energy and endurance.*

MPOWER is the world's first dietary supplement designed to immediately stimulate mitochondrial biogenesis, a natural process that has been attributed to the exceptional leanness and endurance of the world's greatest athletes. Mitochondria burn fat. **MPOWER** increases the number and size of mitochondria (mitochondrial biogenesis) inside muscle. This causes immediate energy and long lasting fat burning.*

Warning: Consult a physician before using if you are unaware of your current health status, if you are pregnant or nursing, if you have a medical condition, or if you or your family has a medical history of cardiovascular disease, diabetes, psychological disorders, hormonal abnormalities, or if you are taking any prescription drug. Do not use if you have high blood pressure, heart problems or are contemplating becoming pregnant. Discontinue use two weeks prior to surgery. Contains caffeine. Do not use in combination with other caffeinated products. Do not exceed maximum daily dosage. Do not use if safety seal is broken. For adult use only. **KEEP OUT OF REACH OF CHILDREN.**

* These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

Certified SAEF™ (Safe and Effective First™)

MPOWER was clinically tested on athletes to confirm that it maintains normal physiological function (Safe) while improving performance (Effective). **MPOWER** contains no substance banned by national college sports associations, International Olympic Committee (IOC) or World Anti-Doping Agency (WADA).
