ENPULSE is used by male and female athletes during training, competition and recovery to immediately enhance natural testosterone levels, reduce production of estrogen, and increase sex drive & performance.*

ENPULSE is the first hormone support supplement to combine testosterone boosting ingredients with aromatase inhibitors and sex-hormone binding agents designed to increase natural testosterone levels.* The unique ingredients in **ENPULSE** work together to promote an anabolic and anti-estrogenic environment that results in increased libido, muscle growth, and the burning of stored fat.*

"I recommend **ENPULSE** for testosterone & sex drive increase"
RIVALUS CEO & Founder, Dr. Darren Burke

RIVALUS Sponsors Athletes and Supports Academic Research.

† In an 8-week clinical trial subjects consuming **ENPULSE** and following a structured weight training program increased muscle mass by 18% and increased testosterone levels by up to 70%. * These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease. © 2010 RIVALUS Inc.

ENPULSE Study Reports Huge Increase in Testosterone & Muscle Mass

In a randomized, double-blind, placebo controlled study thirty male athletes consuming **ENPULSE** for 8 weeks and exercising regularly increased free testosterone levels by up to 70% and lean muscle mass by up to 18% compared to changes of 4% and 8% respectively for placebo group subjects.

Certified SAEF™ (Safe and Effective First™)

ENPULSE was clinically tested on athletes to confirm that it maintains normal physiological function (Safe) while improving performance (Effective). **ENPULSE** contains no substance banned by national college sports associations, International Olympic Committee (IOC) or World Anti-Doping Agency (WADA).

THIS PRODUCT WILL NOT CAUSE AN ADVERSE ANALYTICAL FINDING AS DEFINED BY THE INTERNATIONAL OLYMPIC COMMITTEE (IOC) OR WORLD ANTI-DOPING AGENCY (WADA).
