product info

Read the entire label and follow the directions carefully prior to use.

DIRECTIONS: Take three (3) capsules early in the day, preferably on an empty stomach, or as recommended by a healthcare practitioner. SODzyme® with GliSODin® is a 100% vegetarian product using only plant sources for Superoxide Dismutase (SOD)^Δ catalysts and vegetarian capsules. The SOD enzyme activity is certified based upon the NBT[†] assay. GliSODin® is a patented, non-GMO, water dispersible form of SOD lyophilized extract from the edible plant *Cucumis melo* (Melon). GliSODin® has been combined with a wheat gliadin protein matrix that protects SOD from degradation in the digestive tract and promotes its absorption in the small intestines. SODzyme® and GliSODin® stimulate the natural production of SOD by the body.

WARNINGS:

- KEEP OUT OF REACH OF CHILDREN.
- DO NOT EXCEED RECOMMENDED DOSE.
- Do not purchase if outer seal is broken or damaged.
- When using nutritional supplements, please consult with your physician if you are undergoing treatment for a medical condition or if you are pregnant or lactating.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
