CARNISLIM™ -1250-

with FAT BURNING FACTORS

ZERO CALORIES • FULL B-COMPLEX
STIMULANT FREE

30.4 fl. oz. (900 ml) • 60 Servings

Andrew Lessman's CARNISLIM 1250 is designed as a healthy means of supporting fat-burning metabolism. It does not contain the potentially dangerous Ephedrine-containing herb, **Ma Huang**. **CarniSlim 1250** provides high levels of Carnitine (1,250 mg) – many times higher than any of our prior formulas. Pure Carnitine is a liquid, so it only makes sense that the highest potency Carnitine formula would be a liquid and thereby eliminate the need to swallow several pills per day. Carnitine is required for all fat metabolism to take place in your body because it is an integral part of the system that must move and transfer all body fat to the precise location in your cells where it can be burned. Not surprisingly, Carnitine is found in the highest concentrations in those body tissues that have a high demand for energy, such as the skeletal and cardiac muscle tissues, where it is vital for the transport of fatty acids into the mitochondria of the cells where fat can be burned to produce energy. In addition to helping facilitate fat metabolism and energy production, research has shown that Carnitine is also beneficial in supporting cardiovascular health. Because carbohydrates play an important role in increasing fat storage, **CarniSlim 1250** supplies Chromium and Vanadium to support healthy carbohydrate metabolism. We also include the B-Complex vitamins for their role in carbohydrate and fat metabolism and to support energy production. The sacrifices we make when dieting deserve the best results, and the high levels of pure liquid Carnitine in **CarniSlim 1250**, along with a comprehensive array of fat-burning nutrients, are designed to safely and naturally help you maximize your fat-burning potential. **

Supplement Facts		
Serving Size 15 ml	Servings Per Container 60	
Amount Per Serving		%DV*
Vitamin C (as ascorbic acid)	60 mg	100%
Vitamin B1 (as thiamin hydrochloride)	1.5 mg	100%
Vitamin B2 (as riboflavin-5-phosphate)	1.7 mg	100%
Niacin (as niacinamide)	2 mg	10%
Vitamin B6 (as pyridoxine hydrochloride)	2 mg	100%
Vitamin B12 (as cyanocobalamin)	50 mcg	830%
Pantothenic Acid (as calcium pantothenate)	10 mg	100%
Chromium (as chromium chloride)	40 mcg	33%
L-Carnitine (as L-Carnitine Base)	1,250 mg	†
Vanadium (as vanadyl sulfate)	20 mcg	†

* Percent Daily Values (%DV) are based on a 2,000 calorie diet.
† Daily Value not established.
Other Ingredients: Water, Fructose, Citric Acid, Natural Flavors, Sorbic Acid, Sucralose.
