

CONTAINS NO artificial colors, flavors or preservatives; no wheat, gluten, milk, eggs, peanuts, tree nuts, crustacean shellfish or fish.

Directions: Mix one scoop (included in can) of Organic Soy Protein Powder with at least 8-12 oz water, juice, or milk (use less liquid for a thicker consistency); or mix with yogurt, smoothies, cereal, or meals as desired.

The cocoa in our Chocolate Non-GMO Certified **Organic Soy Protein Powder** is made from cacao beans grown on small scale, organic farms in the Dominican Republic and neighboring South American countries, where agronomists carefully monitor cacao production from seedling development inside a special tree nursery through the final harvesting of the pods. The cocoa is made from Criollo, Trinitario, and Hispaniola cacao beans to create a richly flavored cocoa powder.

Soy is an excellent, high quality source of protein great for those looking to easily add plant-based protein to their diet. The World Health Organization has established that when consumed at the recommended level of protein intake, soy protein contains sufficient amounts of all essential amino acids for human needs, and is considered equivalent to animal protein in quality.¹ Soyfoods are the only natural dietary source with a nutritionally relevant level of isoflavones. Research indicates isoflavones from soy promote hormonal and antioxidant balance, and support cardiovascular, bone and menopausal health. The healthy fat in soy also provides Alpha-Linolenic Acid, an omega-3 fatty acid.¹

Our Ultimate Organics® products do not contain conventional pesticides, synthetic fertilizers, growth hormones, genetic modification or antibiotics. We source only natural, organic raw materials that promote the use of renewable resources and conservation and are reviewed by USDA-approved organic certifiers.

Our soy protein powder comes from soybeans grown and processed in the USA.

Diets low in saturated fat and cholesterol that include 25 grams of soy protein a day may reduce the risk of heart disease. Each serving of Chocolate Non-GMO Certified Organic Soy Protein Powder provides 16 grams of soy protein.
