

Directions: Consume contents of one packet with food once or twice a day, or as directed by your healthcare practitioner.

OSAples™ is a comprehensive, convenient and cost-effective dietary supplement for support of healthy bone, cartilage and ligaments. Each packet has two capsules containing microcrystalline hydroxyapatite (MCHC) and vitamin D3, as well as a capsule containing Choline-Stabilized Orthosilicic Acid (ch-OSA®).

Bone is composed of a calcium-based mineral complex and an organic material known as collagen. A somewhat flexible, fibrous protein, collagen appears to be a key component to the bone's ability to withstand sudden impact. The quantity and health of collagen determines the bone's "toughness"; while the mineral content determines its strength and stiffness.

OSAples™ is one of the only bone formulas on the market that contains clinically-tested, choline-stabilized orthosilicic acid, a well-absorbed form of silicon. Silicon-dependent enzymes link together single chains of amino acids to synthesize collagen fibers. The surfaces of these collagen fibers act as the binding sites for the MCHC. The more surface area the MCHC has to bind to, the more flexible the bone.

MCHC, a comprehensive, proprietary, standardized extraction from one of the world's safest, most natural, premium sources of bone contains a crystalline calcium and phosphorous matrix in the ideal physiological ratio of 2:1, bioactive growth factors and Type I collagen. Amino acids, glycosaminoglycans and a broad range of essential trace elements are also present.

Combine the ch-OSA® and MCHC with therapeutic levels of vitamin D3 and the result is a unique "package" that addresses both quantity and quality of bone, thereby supporting total bone strength and health.*

***This is a statement of nutritional support. This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.**

CAUTION: Keep out of reach of children. Take under medical supervision. Consult your healthcare practitioner if you have or suspect you have a medical condition, are taking prescription drugs, or are pregnant or lactating.

STORAGE: Store at 59-86°F (15-30°C). Protect from light and moisture.

DOES NOT CONTAIN: Wheat, gluten, corn protein, soy, yeast, dairy, artificial colors, sweeteners or preservatives.
