

Doctor's Best Barley Beta-Glucan contains Glucagel™, a water soluble glucose polymer called beta glucan. The health benefits of oatmeal are partly due to its beta glucan content. Barley actually contains more beta glucan than oats. Many health experts recommend increasing the consumption of beta glucans to help support the immune system, lower insulin resistance and blood cholesterol. Glucagel™ is water extracted from natural, hullless, Non-GMO barley grains.*

Helps support immune activity of macrophages and natural killer cells*

Helps increase immune defense*

High purity source of Beta Glucan (75% water soluble fiber)*
