

ORAC Super 7™ is Nature's Answer for optimal defense against destructive free radical damage. This statement has not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease. Scientific studies continue to support the long standing traditional knowledge that consuming fruits and vegetables helps slow the aging process. Advanced research is focusing on fruits that have a high-ORAC value.

ORAC stands for "Oxygen Radical Absorbance Capacity". ORAC describes a laboratory analysis of the antioxidant activity against the peroxyl radical, which is one of the most common reactive oxygen species (ROS) that cause damage to cell membranes. The greater the amount of free radicals a food or nutrient can combat, the higher its ORAC score. This standard, developed in a collaborated effort by the National Institute on Aging and the USDA Human Nutrition Research Center on Aging is what prompted Nature's Answer to develop "ORAC Super 7™".

ORAC Super 7™ contains a hand selected combination of some of the world's most powerful, high ORAC scoring berry and fruit extracts. To further enhance this anti-oxidant formula, ORAC Super 7™ adds additional all natural ingredients, such as organic apple, organic pear and organic agave nectar. Quik-Sorb®, Nature's Answer's exclusive proprietary blend of herbs known to enhance the delivery of nutrients to the body, completes this delicious, high ORAC formulation.
