

Directions: Take two capsules twice daily or as directed by your healthcare practitioner.

Ossopan MD™ with Magnesium and Vitamin D is a comprehensive bone support formula featuring a New Zealand based and free range derived source of calcium rich MCHC (MicroCrystalline Hydroxyapatite Concentrate). MCHC is a complex crystalline compound composed primarily of calcium, phosphorus, organic factors and protein matrix, bone-derived growth factors, and a full spectrum of trace minerals that naturally comprise healthy bone. Ossopan MD™ has been documented in the clinical literature for its benefit in optimal bone health. This formula also provides a 2:1 calcium to magnesium ratio. Ossopan MD™ supplies vitamin D that stimulates intestinal calcium absorption and helps to regulate calcium and phosphorus homeostasis in the body.*
