

Directions: Take 1 to 3 capsules once or twice a day or as directed by a licensed healthcare practitioner.

AdrenaMax™ capsules each contain 600 mg of L-Tyrosine, a free form, proteogenic non-essential amino acid which the body can convert to dopamine, epinephrine, and norepinephrine. These neurotransmitters are primarily known to increase mental alertness and focus, as well as to preserve memory function under stressful conditions. Among the various reasons for adding N-Acetyl-Cysteine, most important is its role in protecting neurons from dopamine toxicity.*

***These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.**

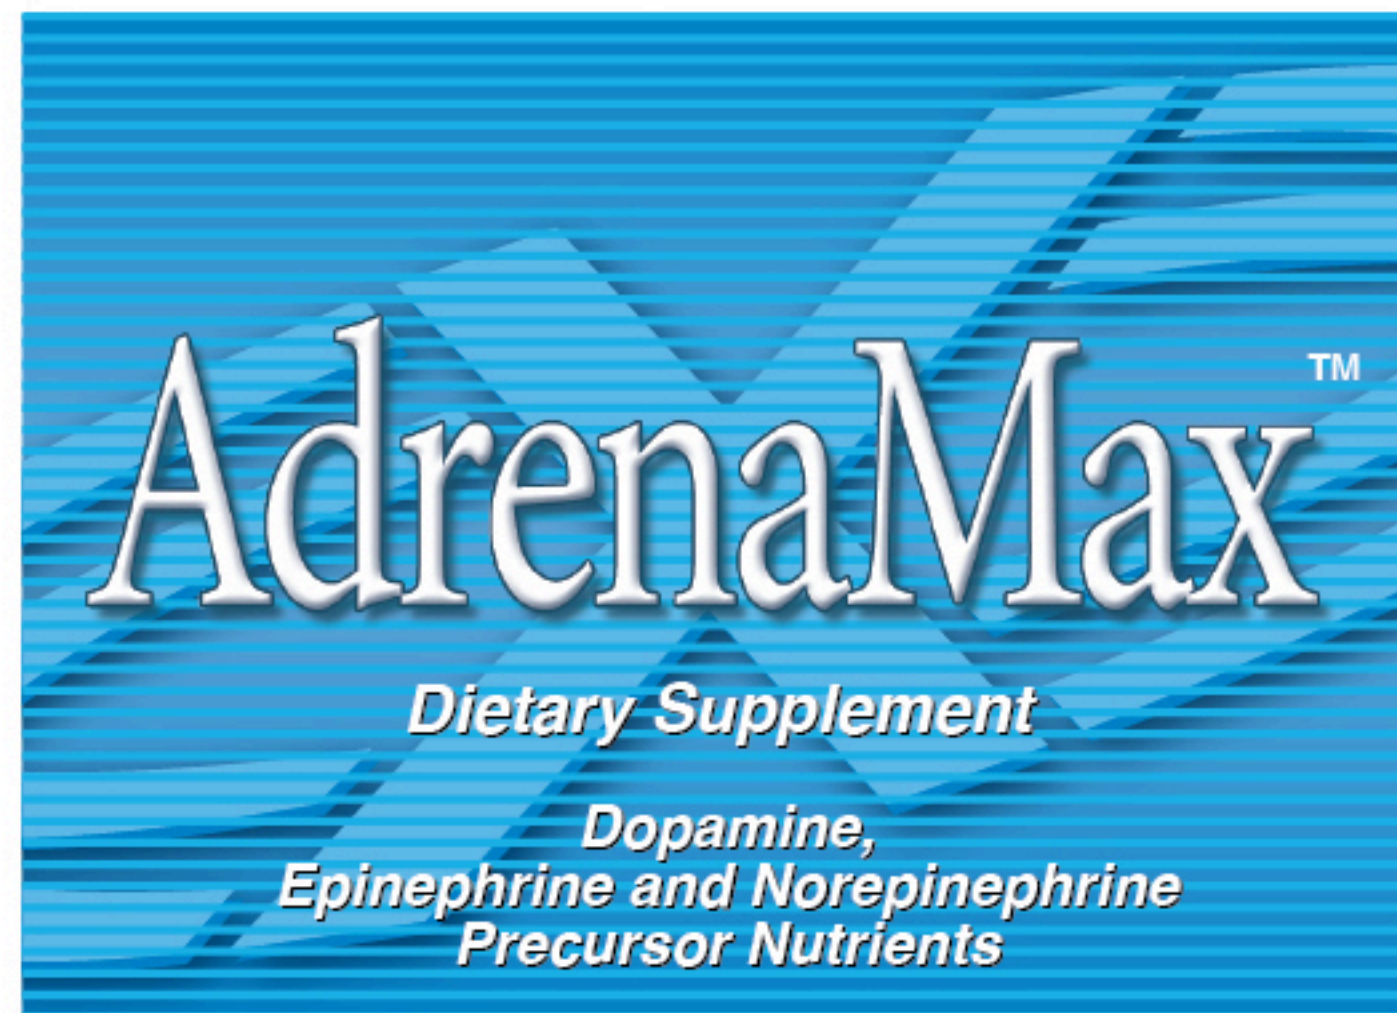

CAUTION: Keep out of reach of children. Take only under supervision of a healthcare practitioner.

STORAGE: Keep tightly closed in a cool, dry place.

DOES NOT CONTAIN: Wheat, gluten, yeast, soy, dairy products, artificial colors, sweeteners or preservatives.
