

Directions: Take one tablet with a meal one to two times daily or as directed by your healthcare practitioner.

Niacin continues to be one of the most studied, and most recommended supplements. Niacin is considered first-line therapy by nearly every panel, including NCEP (The National Cholesterol Education Panel), for improving blood lipids related to cardiovascular health.

XYMOGEN's Sustained-Release **NiaVasc 750™**, not only maintains the helpful lipid modification seen with instant release forms, it dramatically reduces the flushing effect allowing more people to realize the benefits of niacin. The proprietary wax-coated technology permits a release that is complete in 7-8 hours, considered ideal for a time-release niacin.*

***This is a statement of nutritional support. This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.**

CAUTION: Consult your healthcare practitioner prior to use. Keep out of reach of children.

STORAGE: Keep tightly closed in a cool, dry place.

DOES NOT CONTAIN: Wheat, gluten, corn protein, yeast, animal or dairy products, artificial colors, sweeteners, or preservatives.
