

Directions: Take one packet twice daily, or as directed by your healthcare practitioner.

ActivEssentials™ for Women is a combination of four targeted nutritional formulas packaged together to provide convenience and comprehensive nutritional support.

ActivNutrients™: a high quality, hypoallergenic, proprietary multivitamin mineral blend featuring activated vitamin co-factors and patented Albion® chelated mineral complexes in easy to swallow vegetable capsules. This formulation is specifically designed to maximize energy and optimize body composition by providing therapeutic levels of specific nutrients for insulin/glucose utilization.*

OmegaPure 600 EC™: an ultra-pure, Norway-sourced, molecularly distilled, concentrated fish oil that is stabilized with vitamin E as mixed tocopherols to maximize freshness. Each pleasant-tasting, enteric coated softgel provides 360 mg EPA and 240 mg DHA from 1.2 g fish oil. The temperature-controlled, proprietary vacuum technologies used in the manufacture of OmegaPure 600 EC are in accordance with pharmaceutical standards that assure safe, consistent fish oils which exceed Council for Responsible Nutrition (CRN) Monograph standards and meet all international standards for oil safety including WHO, Prop 65, and more. The oil is third party tested according to AOCS (American Oil Chemical Scientists) international protocols to ensure purity and potency. Supportive evidence shows that consumption of EPA/DHA may reduce coronary heart disease risk.*

Oraxinol™: an innovative blend of RosemarinX™ and Berr-X™ ORAC botanicals. ORAC (Oxygen Radical Absorbance Capacity) is a rating developed by the National Institute of Aging and standardized by the USDA. It is a measurement of antioxidant capacity found in fruits and vegetables. An ORAC rating of 6000 TE as found in two capsules of Oraxinol, has been shown to have the antioxidant equivalent of 5-9 servings of fruits and vegetables and may help to minimize the effects free radicals may have on aging.*

Ossopan™: Featuring calcium rich MCHC (Microcrystalline Hydroxyapatite Concentrate), a complex crystalline compound composed primarily of calcium, phosphorus, organic factors, protein matrix, growth factors and a full spectrum of trace minerals that naturally comprise healthy bones.*

Each packet contains: 2 ActivNutrients Capsules, 1 Oraxinol Capsule, 1 OmegaPure 600 EC Softgel, and 1 Ossopan Capsule.
