Nature's Bounty® Probiotic Gummies are the great-tasting way to get friendly bacteria for your digestive system.* Made with natural flavors, Probiotic Gummies feature a special probiotic strain called *Bacillus coagulans* Unique IS-2™. This strain is naturally found in the intestinal microflora, and surrounds itself with protective layers to increase its viability — many typical probiotic bacteria do not have these protective layers. That's why *Bacillus coagulans* Unique IS-2™ can survive the high temperatures of the gummy processing environment — not to mention extremes of pH as found in your digestive tract — better than many typical probiotic bacteria, so you can get the friendly microorganisms your digestive system deserves.*

DIRECTIONS: For adults, enjoy four (4) gummies daily. May be taken with or without a meal.
