Other ingredients: potato starch, plant-derived capsule
(hypromellose), aqueous-enteric coating (hypromellose,
sodium alginate, stearic acid, fractionated [non-
hydrogenated] coconut oil, oleic acid), magnesium
stearate, ascorbic acid

Contains milk, soy and tree nuts (coconut).

**Replenish Microflora with
Primadophilus® Optima***

Primadophilus® Optima is a potent (35 billion
CFUs) and diverse (14 strains) formula of
probiotics for intestinal microflora.*

Why 14 probiotic strains?

- Like a fingerprint, each individual has a
unique balance of strains in their microflora
- Primadophilus® Optima provides a broad
diversity of strains commonly found in the
human digestive tract
- Each strain provides its own unique benefits

With NutraFlora® scFOS®

- Unique "short-chain" form of FOS
- Preferred food source for microflora
- Promotes microflora growth & colonization*
- More effective than other FOS forms

Importance of Microflora

The "friendly" bacteria of the intestinal tract
are essential to good health because they:

- Secrete enzymes to aid proper digestion
- Produce organic compounds that inhibit
the reproduction of harmful bacteria
- Boost immune function

Stress, poor diet, age and changes in lifestyle
can adversely affect microflora.
