THE K-OTIC™ EXPERIENCE:

Psycho-Active Mind & Muscle Connection: K-OTIC™ is literally going to hit you fast and right between the eyes. Because of its unique delivery system, you'll be primed in as little as 15 minutes for an all-out war against the iron. It'll jumpstart your neurotransmitters while simultaneously flipping the switch on your inner animal aggression. You'll experience a new feeling of "domination" from our anabolic amplifier Taxadrol®. We've added just enough to help you bulldoze thru your toughest workouts by giving you added mental/physical drive.*

Psycho-Active Power: K-OTIC™ may push you closer to a new PR with every training session, and its key anabolic compounds will help you add the strength and confidence to pull it off. Some days your progress will not be measured by a new single rep increase, but maybe 3... 4... or even more!*

Psycho-Active Energy: The SINGLE SCOOP sustained-release energy of K-OTIC™ happens in continuous "stealth" phases with no lag time. This means you're pushing all the way thru with the same drive you had on REP 1 of SET 1! You'll "Punish The Iron" one hardcore contraction at a time. You may also experience rock-hard fullness, pumps and swole.*

FLEX WHEELER SAYS:

You may not be a professional bodybuilder, but you want to train like one. For me, K-OTIC™ brings all the pre-workout forces together (fast-hitting intensity, unrelenting drive, higher pain threshold, and off-the-chain strength and energy). Just a single, powerful dose will help make every workout your best. You simply must try it to believe it. We designed K-OTIC™ to clearly lead the way. I'm willing to put my name on it.
