

DHA (Docosahexaenoic Acid, omega-3) is a building block for the cell membranes that manage life processes. This vitamin-like nutrient and its metabolic derivatives are vital to mental performance, heart and blood vessel health, vision, immunity, and many other functions. **Best Vegetarian DHA from Algae** is plant sourced DHA, prepared from toxin-free, sustainably cultured algae and suitable for vegetarians.*

Universal enhancer of cell, tissue, and organ functions*

Supports memory and learning against age-related decline*

Promotes brain and cardiovascular health at all stages of life*
