

GLUTALEAN™

GlutaLean™ L-Glutamine is pure and free of contaminants, made by the natural fermentation of microbes in a controlled, pharmaceutical grade lab.

- Vegan friendly • Non-GMO • Allergen-Free
- Not sourced from bird feathers or hair

Glutamine is an amino acid that accounts for approximately 60% of all free form amino acids in the body. Muscle tissue contains especially high concentrations of glutamine. Supplemental glutamine can help prevent muscle tissue breakdown, increase protein synthesis, increase glycogen storage (energy stores) in muscle, and support healthy immune function.*
