

T.A.G. is ideal for any consumer who demands superior quality, uncompromising results, and is looking to improve overall health, increase muscle repair, and maximize physical enhancement...guaranteed!

Dedicated to manufacturing high quality nutritional supplements backed by scientific research and formulated by a medical doctor, Metabolic Nutrition was the first to introduce Trans-Alanyl-Glutamine Di-peptide to the marketplace. Acclaimed by physicians, athletes and consumers alike, **T.A.G.** has the distinction of being the only "Muscle Targeted Glutamine" supplement in the market today. Due to its unique "di-peptide" designed chemical structure, **T.A.G.** is strong enough to be mixed in water or other beverages without any degradation which affects other glutamine products. Unlike Free-form L-Glutamine (which is mostly utilized in the intestines leaving as little as 10% for muscle tissue)...**T.A.G.** is far superior as it is 100% assimilated into the bloodstream, directly transported and infused deep into muscle tissue. Engineered for muscle repair, **T.A.G.** prevents the loss of muscle glutamine during exercise, preventing "protein catabolism" (i.e. muscle loss)...therefore aiding in the maintenance and building of muscle intra and post workout. In addition to increasing recovery during and following exercise, **T.A.G.** also provides a complete recovery solution supporting the body's immune system, preventing muscle catabolism, increasing protein synthesis and growth hormone release, making it a critical supplement in any athlete's workout.

CAUTION: Do not exceed recommended dose. Not intended for use by persons under the age of 18, those with a medical condition, or those with a history of kidney disease. Do not use if pregnant or lactating. If you are under the care of a physician, please consult your physician before using this product. Do not use if tamper-resistant seal is broken. **KEEP OUT OF REACH OF CHILDREN. STORE IN A COOL, DRY PLACE AND AVOID EXCESSIVE HEAT.**

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Allergen Warning: Manufactured in a plant that also processes egg, soy, peanut, tree nut, fish, crustaceans/shellfish and wheat products.
