

Trans-Resveratrol 600 provides highly concentrated levels of trans-resveratrol from the root of the Japanese knotweed (*Polygonum cuspidatum*). Japanese knotweed provides one of the highest resveratrol concentrations found in nature. Resveratrol exists in both trans- and cis-forms. However, published research suggests that only the trans-form has valuable biological activity.

Trans-Resveratrol acts as a potent antioxidant

Helps protect cells from free radical damage*

Helps reduce oxidative stress*
