

**Doctor's Best Ubiquinol with Kaneka QH®** contains the reduced form of coenzyme Q10. Both ubiquinol (CoQ10-H2) and ubiquinone (CoQ10) are metabolically active. Each form has unique roles in cells relating to antioxidant actions, supporting healthy heart function and enhancing energy production.\* Ubiquinol helps regenerate other antioxidants, such as vitamin C and E.\* It may offer improved bioavailability in aging adults who may have difficulty achieving high levels of this nutrient, or those concerned with nutrient absorption.\*

**Helps support mitochondria to enhance cellular energy production\***

**Helps support healthy heart function\***

**Ubiquinol is a powerful antioxidant\***
