- L. bulgaricus Lb-64
- L. casei Lc-11
- L. fermentum SD-5847
- L. paracasei Lpc-37
- L. plantarum Lp-115
- L. reuteri SD-5865
- L. rhamnosus Lr-32
- L. salivarius Ls-33
- S. thermophilus St-21

PREBIOTICS (prebiotics = food for beneficial bacteria)

- L. Glutamine
- Galactooligosaccharide
- Gum Acacia
- Larch Gum

DIGESTION • METABOLISM • IMMUNITY

Better Probiotics - GoLive products contain a complex blend of fifteen documented and clinically-tested probiotic strains.

Better Probiotics - Once blended in liquid, GoLive probiotics begin to grow and colonize as they consume the nourishing blend of prebiotic soluble fibers.

Better Delivery - GoLive probiotic products are freeze-dried and individually packaged in foil to prevent exposure to moisture and harmful heat-generating light. As a result, the probiotics are alive and growing when it counts: at time of consumption.

Better Effects - Probiotics play a key role in health and wellness by colonizing in the gastrointestinal tract - benefiting digestive, metabolic and immune function.*

We Take Care Of Our Probiotics...So They Can Take Care Of You!

GoLive...Be Well!

* Percent Daily Values are based on a 2,000 calorie diet.
† Daily Value not established.

Other Ingredients: Silica

Contains 1% Sodium of Undetectable Levels of <5ppm. *No Time of Manufacture.

No Refrigeration Required. Store in a Cool Dry Place.

Directions: Dissolve contents of 1 packet into 8-16 fluid ounces of any liquid or food (<75°F). Consume within 12 hours of mixing, with or without food.

Recommended Use: See gel agent. Consume 1 packet every other day to maintain healthy intestinal balance. Consume 1 or more packets daily, if desired or needed to address more acute health concerns.

Note: During first days of use, air bubbles in the digestive tract, belching, temporary bloating, digestive gurgling and gas may occur, but normally subside within one week.
