- L. reuteri SD-5865
- L. rhamnosus Lr-32
- L. salivarius Ls-33
- S. thermophilus St-21

FERMENTICS (prebiotics = "food" for good bacteria)

- L. Glutamine • Galactooligosaccharide • Gum Acacia • Larch Gum • Cane Sugar

Better Probiotics - GoLive products contain a complex blend of fifteen documented and clinically-tested probiotic strains.

Better Prebiotics - Once blended in liquid, GoLive probiotics begin to grow and colonize as they consume the nourishing blend of prebiotic soluble fibers and sugars.

Better Delivery - GoLive probiotic products are freeze-dried and individually packaged in foil to prevent exposure to moisture and harmful heat-generating light. As a result, the probiotics are alive and growing when it counts, at time of consumption.

Better Effects - Probiotics play a key role in health and wellness by colonizing in the gastrointestinal tract - benefiting digestive, metabolic and immune function!

We Take Care of Our Probiotics...So They Can Take Care of You!

GoLive...Be Well!

*Percent Daily Values are based on a 2,000 calorie diet.
† Daily Value not established.

Other Ingredients: Cane Sugar, Citric Acid, Natural Flavors, Natural Colors from Fruits and Vegetables, Mono Fruit Extract, Silica.
Contains 1% Protein of Undetectable Levels of <1ppm 7% Time of Manufacture

No Refrigeration Required. Store in a Cool Dry Place.

Directions: Dissolve contents of 1 packet into 8-16 fluid ounces of any liquid or food (<75°F). Consume within 12 hours of mixing, with or without food.

***Recommended Use (all ages):** Consume 1 packet every 2-3 days to maintain healthy intestinal balance. Consume 1 or more packets daily if desired or needed to address more acute health concerns.

Note: During first days of use, as bacteria in the digestive tract reestablish, temporary floating, digestive gurgling and gas may occur, but normally subsides within one week.
